

tcpip::Socket::has
_client_connection

```
graph LR; A["tcpip::Socket::has  
_client_connection"] --> B["tcpip::Socket::is_blocking"]
```

A diagram showing a relationship between two TCP/IP socket attributes. On the left, a gray rectangular box contains the text "tcpip::Socket::has_client_connection". A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "tcpip::Socket::is_blocking". Both boxes have a black border.

tcpip::Socket::is_blocking
